Enclosure: Information for Organizations Exempt Under Sections Other Than 501(c)(3)

#### 501(c)(6)

A 501(c)(6) organization is a business league, chambers of commerce like the U.S. Chamber of Commerce, a real estate board, a board of trade, a professional football league or an organization like the Edison Electric Institute and the Security Industry Association, that are not organized for profit and no part of the net earnings goes to the benefit of any private shareholder or individual.

# Qualifications for exemption

A business league may qualify if it is an association of persons having a common business interest, whose purpose is to promote the common business interest and whose activities improve business conditions rather than actually conduct the business itself. Members of the organization must be of the same trade, business, occupation, or profession in order to qualify. A chamber of commerce or board of trade could qualify for similar reasons except that they may promote the common economic interests of all the commercial enterprises in a given trade or community.

An association would not qualify if its principal activities consist of securing benefits and performing particular services for members.

An association that promotes the common interests of certain hobbyists would not qualify because the Internal Revenue Service does not consider hobbies to be activities conducted as businesses.

An organization whose primary activity is advertising the products or services of its members does not qualify because the organization is performing a service for its members rather than promoting common interests. If an organization's primary activity is advertising the products or services of its members' industry as a whole, however, the organization will generally qualify if it also performs other services for its members.

#### Contributions and activities

Much like 501(c)(4) and 501(c)(5) organizations, 501(c)(6) organizations may also perform some political activities. 501(c)(6) organizations are allowed to attempt to influence legislation that is related to the common business interests of its members.

501(c)(6) organizations can receive unlimited contributions from corporations, individuals, and labor unions. The names and addresses of contributors are not required to be made available for public inspection. All other information, including the amount of contributions, the description of noncash contributions, and any other information, is required to be made available for public inspection unless it clearly identifies the contributor. The U.S. Chamber of Commerce is a large political spender, and Freedom Partners used its status as a 501(c)(6) organization to raise and distribute over \$250 million during the 2012 election campaigns without disclosing its donors. The group's existence was not publicly known until nearly a year after the election.

A business' membership dues paid to a 501(c)(6) organization are generally an ordinary and necessary business expense. The membership dues are tax-deductible in full unless a substantial part of the 501(c)(6) organization's activities consists of political activity, in which case a tax deduction is allowed only for the portion of membership dues that are for other activities.

#### History

The predecessor of IRC 501(c)(6) was enacted as part of the Revenue Act of 1913 likely due to a U.S. Chamber of Commerce request for an exemption for nonprofit "civic" and "commercial" organizations, which resulted in IRC 501(c)(4) for nonprofit "civic" organizations and IRC 501(c)(6) for nonprofit "commercially-oriented" organizations. The Revenue Act of 1928 amended the statute to include real estate boards. In 1966, professional football leagues were added to the described organizations.

The Revenue Act of 1913 related to professional football leagues had both antitrust and tax provisions: The antitrust provision was enacted to permit the merger of the National and American Football Leagues to go forward without fear of an antitrust challenge under either the 1914 Clayton Antitrust Act or the 1914 Federal Trade Commission Act. IRC 501(c)(6) amendment was enacted in 1966 to ensure that a professional football league's exemption would not be jeopardized because it administered a players' pension fund. Additionally, a professional sports league's exemption is not to be jeopardized because its primary source of revenue is the sale of television broadcasting rights to its games because the broadcasting of games increases public awareness of the sport.

In 2013, Senator Tom Coburn introduced legislation to disallow a tax exemption for the National Football League, the Professional Golfers' Association, and other professional sports organizations. Coburn estimated the tax exemption cost \$100 million, but he said he could not get other members of Congress to support the legislation.

This letter could help resolve questions on your exempt status. Please keep it for your records.

Organizations exempt under IRC Section 501(c)(3) are further classified as either public charities or private foundations. We determined you're a public charity under the IRC Section listed at the top of this letter.

If we indicated at the top of this letter that you're required to file Form 990/990-EZ/990-N, our records show you're required to file an annual information return (Form 990 or Form 990-EZ) or electronic notice (Form 990-N, the e-Postcard). If you don't file a required return or notice for three consecutive years, your exempt status will be automatically revoked.

If we indicated at the top of this letter that an addendum applies, the enclosed addendum is an integral part of this letter.

RE: City of Orting Grant Application

Dear Council:

Thank you for your continued support of Recovery Café Orting Valley. Recovery Café Orting Valley creates a healing community of individuals impacted by life challenges. These challenges include homelessness, addiction, mental health concerns, trauma, injustice, but we have a firm belief that everyone is recovering from something. We provide a safe place for individuals to come to know ourselves as loved with gifts to share. We offer peer support though coaching, facilitation of Recovery Circles (a group setting), School for Recovery education and social offerings, and opportunities to grow and give back to the community.

This year and next we hope to increase our services to help support our community more through partnerships with the Orting United Methodist Church and support offering a clothing bank to the community. We are asking for \$5,000 of our request for this new project. This is much needed in our community. It will serve all ranges and many Orting citizens.

The remaining request of \$10,000 we are asking to go to help maintain our mental health supports we offer to our members. We have continued to support individuals with group and individual mental health therapies and hope to keep providing this service.

Recovery Café Orting Valley strives to serve all individuals who seek support as they overcome a challenge in their life. We currently support individuals 13 and older. We server individual living in and around Orting, Washington. We do not discriminate based on behavioral health status, gender identity, race, sexuality, religion, marital status, veteran status, nation of origin, or any other category of identified discrimination.

Please let me know if you have any more questions.

Sincerely,

Rena Thompson Executive Director

Recovery Café Orting Valley rena@recoverycafeorting.org

#### Dear Applicant:

We're pleased to tell you we determined you're exempt from federal income tax under Internal Revenue Code (IRC) Section 501(c)(3). Donors can deduct contributions they make to you under IRC Section 170. You're also qualified to receive tax deductible bequests, devises, transfers or gifts under Section 2055, 2106, or 2522. This letter could help resolve questions on your exempt status. Please keep it for your records.

Organizations exempt under IRC Section 501(c)(3) are further classified as either public charities or private foundations. We determined you're a public charity under the IRC Section listed at the top of this letter.

If we indicated at the top of this letter that you're required to file Form 990/990-EZ/990-N, our records show you're required to file an annual information return (Form 990 or Form 990-EZ) or electronic notice (Form 990-N, the e-Postcard). If you don't file a required return or notice for three consecutive years, your exempt status will be automatically revoked.

RE: City of Orting 2022 Grant

TO: Community and Government Affairs Committee

Thank you for the opportunity to apply for the City of Orting 2022 Grant. Orting Senior Center Organization would like to request \$15,000 to help purchase food and disposables for our Senior Mealsite Program. 2020 and 2021 brought a large influx of new senior participants due to food insecurity from the Covid Pandemic. Attached are copies of our mealsite numbers for the last 3 years and year to date to show the numbers and our need for additional funding to continue to feed the Seniors and disabled in the Orting Community. We were blessed with enough food donations to offset the rise in numbers last year but additional funding is needed to maintain our current meal counts. We have been gifted a new building (Orting Christian Church) and are working to aquire funding to add a commercial kitchen, restrooms and other neccessities to provide meals services daily and during emergent times. Our current building will not accommodate our growing numbers and we look forward to being able to continue serving our Orting Seniors in our new building. Your financial support allows us to use existing funds to pursue the expansion of our new building.

Thank you for your consideration,

HI Danielle,

Sorry for the delay. We have seven playgrounds under construction this month and it is very busy.

A Traditional Swing at 8' with 2 belts is \$1880.	
An R5 Arch Swing is \$3400.	
The freight for either of them would be pretty similar and would for either, but we can certainly refine that when you pick an o	ld be coming from Oregon. I would estimate about \$500 otion.

Hello,

I was hoping you'd have time today to put together a quote for those two swing sets. If today doesn't work could I get them sometime early next week?

Thank you,

# Single Post Swing Frame 1-Bay

# **Product Description**

# **Product Description:**

Our Single Post Swing Frame is constructed from 5 in. diameter steel and stands 8 feet tall. This frame style complements any play environment at an outdoor park, elementary school, or early childhood facility. This design may only be paired with traditional swing seats, not tire swings. We provide four bay options as well as an add-a-bay option to ensure you have an available option for any number of children.

# Quick Highlights:

- · Fall Height: 8 ft.
- Use Zone: Starts at 24 ft. x 32 ft. (Varies Based on Bay Count)
- Age Range: All Ages, Dependent Upon Seat Style
- 5" Post Diameter

# **Product Description**

## **Product Description:**

Our Cantilever Swing, an add-on swing option, is designed specifically for ages 6-23 or 24-47 months and allows customers to extend the play value of our Single Post Swing Frame. What makes this add-on swing such great value? For safety reasons, a single swing bay cannot have both a belt seat (designed for ages 2-12 years) and a bucket seat (designed for ages 6-23 or 24-47 months). In the past, if you wanted to offer swing opportunities to different age groups, you'd have to buy a second swing bay. Not anymore! What's more, this is a space-saving design and is a perfect solution for customers with small spaces.

# **Quick Highlights**

- Ages 6-23 Months: EFR0150XX
- Ages 24-47 Months: EFR0148XX
- Available for Our 5" Single Post Swing Frame (Not Available for Our With Shade Option)
- Add Cantilever Swings on Both Sides of Swing Frame or Just One
- · Includes Bucket Seat, Fittings, and Horizontal Arm
- Single Post Swing Frame Sold Separately
