Fee Due \$ _____ Fee Paid Receipt # _____

Ref. OMC #597 Revised 08/09/23

NOTICE OF EXCAVATION TO PIPELINE COMPANIES RCW 19.122.033: EFFECTIVE January 1, 2013

(1) Before commencing any excavation, an excavator must notify pipeline companies of the scheduled commencement of excavation through a one-number locator service in the same manner as required for reporting facility operators of excavation under RCW 19.122.030.

(4)(b); require that the applicant consult with the pipeline company as a condition of issuing the permit.

RCW 19.122.033 Notice of excavation to pipeline companies. (Effective January 1, 2013.)

(1) Before commencing any excavation, an excavator must notify pipeline companies of the scheduled commencement of excavation through a one-number locator service in the same manner as required for notifying facility operators of excavation under RCW [19.122.030](#). Pipeline companies have the same rights and responsibilities as facility operators regarding excavation under RCW 19.122.030. Excavators have the same rights and responsibilities under this section as they have under RCW [19.122.030](#).

(2) Project owners, excavators, and pipeline companies have the same rights and responsibilities relating to excavation near pipelines that they have for excavation near underground facilities, as provided in RCW [19.122.040](#).

(3) The state, and any subdivision or instrumentality of the state, including any unit of local government, must, when planning construction or excavation within one hundred feet, or greater distance if required by local ordinance, of a right-of-way or utility easement containing a transmission pipeline, notify the pipeline company of the scheduled commencement of work.

(4) Any unit of local government that issues permits under codes adopted pursuant to chapter [19.27](#) RCW must when permitting construction or excavation within one hundred feet, or greater distance if required by local ordinance, of a right-of-way or utility easement containing a transmission pipeline:

(a) Notify the pipeline company of the permitted activity when it issues the permit; or

(b) Require the applicant to consult with the pipeline company as a condition of issuing the permit.

(5) The commission must assist local governments in obtaining hazardous liquid and gas pipeline location information and maps, as provided in RCW [81.88.080](#).

[2011 c 263 § 6; 2000 c 191 § 18.]
